

SUSAN L. BAUR, R.N.

Susan Baur is a registered nurse with over twenty-five years of broad-based experience in patient services with an emphasis on cardiovascular care. She has been employed in both hospital and clinical practice settings where she has had significant responsibilities for medical, surgical and coronary care patients.

For the past ten years, Mrs. Baur has been instrumental in the success of Heart Ventures where she has assisted in the implementation of corporate wellness programs. In addition to screening and identifying participants who are at high risk for cardiovascular disease, she conducts comprehensive classes in nutrition and fitness. Her expertise and skilled teaching methods directing participants toward lifestyle change have made a major impact on HeartVentures' high success rate.

Mrs. Baur has an Associates Degree in Applied Sciences from Upstate Medical Center in Syracuse, New York. She is also a certified aerobics instructor.
